DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-42, drawn to Compounds.

Group II, claim(s) 43, drawn to Synthesis.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature of Group I relates to the substituent at the 8-position. Group II however is not limited to such compounds, and it reads on preparing a very broad range of 8-position substituents, including known compounds. Hence, the special technical feature of Group II must be the different method of making such compounds, rather than the compounds themselves. It should be further noted that the method of Group II will not necessarily make compounds of Group I, as the process will not make compounds where Z = bond, or O, etc. In general, the specification does not disclose making the Claim 1 compounds by the Group II process.

A telephone call was made to Grant Kalinowski on 8/20/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1624

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
